Data Protection Act 1988

The information you have given will be used for the purposes of processing your request. The council may check your details with other information held and may share these with other council services to check the accuracy of the information, to prevent or detect fraud or crime and to protect public funds. Information in relation to mainstream transport may be shared with other local authorities, SEEMIS and Strathclyde Partnership for Transport.

Note:

Privilege passes may be available where there are vacant places on dedicated school transport vehicles. The availability of privilege passes will be assessed after places for entitled pupils have been allocated. Privilege pass applications, for the start of the new school year, should be submitted by the first day of term and allocations will take place in September / October. Where there are insufficient spaces available for all privilege pass applications a ballot procedure will be followed.

Your application will remain on a waiting list for consideration should subsequent spaces become available at a later date.

It is important to note that privilege passes can be withdrawn at short notice should a child who is entitled to home to school transport require a seat on the bus.

We will write to you as soon as possible to let you know if your application has been successful.
