Participation Statement

The Community Justice (Scotland) Act 2016 requires statutory partners involved in community justice to produce a participation statement detailing how they have involved third sector bodies and community bodies in community justice and the preparation of their Community Justice Outcomes Improvement Plan (CJOIP).

Community Justice Renfrewshire is committed to engaging with our communities, to empower them to contribute to our CJOIP and actions across all priority areas. In preparing the plan we carried out engagement activities which were attended by a number of our strategic partners and wider stakeholders, as outlined in the following table.

Participation, engagement and consultation for the development of the community justice plan will be ongoing. We will ensure that there is continued liaison and communication between statutory partners, non-statutory partners and third sector organisations. We will continue to engage with people in communities including victims and witnesses of crime, people with convictions and their families, in order to gather views on how we can reduce re-offending in Renfrewshire, so that these can be reflected in our Community Justice Outcomes Improvement Plan for forthcoming years.
