WHAT WE WANT TO ACHIEVE

We will ensure our children and young people enjoy good physical and mental health.

We will ensure our children and young people are safe and loved.

We will ensure our children and young people have their rights protected and their voices heard.

We will ensure our children and young people achieve and make positive contributions to their community.

Specialist services are offered to children, young people and families who need help with something that's complex and might require a lot of ongoing support.

Targeted services may be useful if you or your family need a bit more help to overcome certain circumstances or challenges, even if just for a short period of time.

Universal services are the ones that are available to every child and young person in Renfrewshire.

PARTICIPATION

The work of Renfrewshire Children's Services Partnership is underpinned by a children's rights approach which takes account of the views, needs and experiences of children, young people, families and communities across Renfrewshire.
