

Draft Renfrewshire Strategic Housing Investment Plan 2023 to 2028

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Draft Renfrewshire Strategic Housing Investment Plan Preparation and Consultation

This draft Strategic Housing Investment Plan 2023 to 2028 has been prepared for public consultation following initial discussions with Registered Social Landlords operating in Renfrewshire and the Scottish Government.

As part of the consultation process, engagement on the Strategic Housing Investment Plan with Renfrewshire residents, local Tenants and Residents Associations, Community Councils and other key partners for comment is key and we will consult and engage by a range of methods.

The comments and feedback received as part of the consultation process will be considered and will shape the finalised Strategic Housing Investment Plan for the period 2023 to 2028.

The finalised Plan will be submitted for approval to the Council's Communities and Housing Policy Board on the 25th October 2022, thereafter it will then be submitted to the Scottish Government.

Following submission to the Scottish Government, a Strategic Local Programme Agreement for Renfrewshire will be agreed which forms the basis of individual agreements between the Scottish Government, Renfrewshire Council and Registered Social Landlords on funding for specific affordable housing projects.

This Draft Strategic Housing Investment Plan is to be published for consultation from **22 August 2022 to 23 September 2022.**

Comments should be returned by email or by post to:

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Renfrewshire's Strategic Housing Investment Plan

Renfrewshire's Strategic Housing Investment Plan sets out how investment in affordable housing will be targeted to meet the Strategic Priorities of Renfrewshire's new Local Housing Strategy and support the delivery of the right homes in the right places.

The Scottish Government's Affordable Housing Supply Programme sets out a framework to deliver local housing projects and priorities to assist in the provision of safe, energy efficient homes that meet people's needs and contribute to the creation of sustainable thriving communities.

The Scottish Government allocate grant funding to Councils through the Affordable Housing Supply Programme to facilitate the delivery of projects within the Strategic Housing Investment Plan.

As part of the Affordable Housing Supply Programme process, local authorities are required to prepare and update a Strategic Housing Investment Plan each year.

The Scottish Government's Housing Programme

The Scottish Government published their '**Housing to 2040 Strategy**' in March 2021 which set out their approach to increasing the supply of homes across all tenures.

In terms of affordable housing, the 'Housing to 2040 Strategy' included a target to provide 110,000 affordable homes over the 10-year period to 2032 with at least 70% of these homes to be developed for social rent.

The 'Housing to 2040 Strategy' is ambitious and will require ongoing partnership working between the Council, affordable housing providers, private developers, the construction industry and the Scottish Government.

Continued financial support in terms of future funding commitments from the Scottish Government will also be essential to support the delivery of Renfrewshire's contribution to national affordable housing delivery targets.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

The Scottish Government's Housing and Planning Delivery Framework (HPDF)

In addition to the 'Housing to 2040 Strategy', this draft Strategic Housing Investment Plan takes cognisance of the Scottish Government's Housing and Planning Delivery Framework (HPDF) which promotes more efficient collaboration between Housing and Planning Services in relation to the Local Housing Strategy, Housing Need and Demand Assessment and Scottish Planning Policy.

Renfrewshire's Strategic Housing Investment Plan, the Local Housing Strategy and the Local Development Plan all aim to support the implementation of the Housing and Planning Delivery Framework which aims to increase the supply of housing; make the housing system more responsive to demand; improve long term housing affordability and reduce volatility in the housing market.

Affordable Homes for Renfrewshire

The Council are working with local authorities across the Glasgow City Region to prepare a Housing Need and Demand Assessment (HNDA3). This assessment will identify the amount of new affordable homes that need to be delivered across Renfrewshire.

An additional comprehensive 10-year affordable housing assessment of the Renfrewshire area has also been commissioned

to support the delivery of the Strategic Priorities contained within the new Local Housing Strategy.

This detailed research will complement the wider HNDA 3 by identifying housing need at a Renfrewshire sub-area level across Renfrewshire's towns and villages. This comprehensive evidence base will also inform the application of the new Affordable Housing Policy in Renfrewshire.

The amount of new affordable homes that require to be delivered will be set-out in the emerging Renfrewshire Local Housing Strategy.

There continues to be need and demand for different types of affordable housing across Renfrewshire, the projects included in this draft Strategic Housing Investment Plan reflect these needs.

The delivery of affordable housing will be further strengthened over the next five years working with private sector partners to ensure effective delivery of mixed tenure developments throughout Renfrewshire as part of the new Affordable Housing Policy.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Resources for Housing Delivery

It is important to maintain a healthy, flexible and ambitious affordable housing development programme to ensure that sites can be progressed quickly to meet local needs while making best use of available funding and resources.

The Scottish Government provide local authorities with multi-year Resource Planning Assumptions (RPA's) to support long term planning and delivery of projects within the Strategic Housing Investment Plan.

For the four year period 2022/23 to 2025/26, the following minimum levels of grant funding have been confirmed by the Scottish Government:

- **£17.189M** in grant support for the financial year 2022/23;
- **£17.140M** in grant support for the financial year 2023/24;
- **£17.200M** in grant support for the financial year 2024/25; and
- **£17.485M** in grant support for the financial year 2025/26.

Revised Scottish Government Grant Benchmarks and New Affordable Housing Design Features

Resource Planning Assumptions support the delivery of new affordable homes across Renfrewshire by providing grant support at flexible benchmark rates for each affordable home developed.

In late 2021, the Scottish Government increased benchmark grant rates following discussions with COSLA, local authorities and housing associations with new flexible benchmark rates now set at £71,500 for new Council homes and £78,000 for new social rented homes delivered by housing association partners.

Over and above the increased flexible grant benchmark rates, additional grant funding is available from existing Resource Planning Assumptions to affordable housing developers who meet Scottish Government criteria in relation to specific quality and design features, including:

- The delivery of homes to Silver Level of the 2019 Building Regulations in respect of Energy for Space Heating;
- The provision of balconies within flatted developments where the provision of private or communal outdoor space is not possible;
- The provision of space for home working or study where it is not possible to incorporate such space within the design of the homes under current space standards;
- By ensuring that all new social rented homes are digitally enabled with tenants able to arrange for an internet connection without the internet service provider having to provide additional cabling to the premises;
- The installation of ducting infrastructure for electric vehicle charge point connectors;

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

- The installation of automatic fire suppression systems; and
- Installation of heating systems which produce zero direct emissions at the point of use.

The increased flexible benchmark rates of grant and additional grant being made available to affordable housing developers who incorporate enhanced design elements is being met from current known Resource Planning Assumptions. This may have an impact on the number of new affordable homes being delivered as the level of grant for each property increases.

Renfrewshire new Local Housing Strategy

A new draft Local Housing Strategy which covers the period 2022 to 2027 has now been developed with a 12 week public consultation now complete.

All feedback is being reviewed with a finalised Local Housing Strategy to be submitted to a future meeting of the Communities and Housing Policy Board.

The new draft Local Housing Strategy takes account of current local and national policy priorities as well as new research and evidence and looks to build upon past successes whilst aiming to meet need and demand for both housing and housing related services.

The new draft Local Housing Strategy has been a collaborative process with local communities, the third sector, key stakeholders and partners all contributing to the development of the new draft Local Housing Strategy. The new draft Local Housing Strategy includes 5 strategic priorities as shown below.

New draft Local Housing Strategy Strategic Priorities

1. The supply and delivery of housing is increased across all tenures to meet the housing needs of different groups and create attractive and sustainable places;
2. People live in high quality, well managed homes in sustainable neighbourhoods;
3. Address the challenges of the climate emergency, delivering homes that are warm, energy efficient and fuel poverty is minimized;
4. Preventing and addressing Homelessness with vulnerable people getting the advice and support they need; and
5. People can live independently for as long as possible in their own home and the different housing needs of people across Renfrewshire are being met.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Meeting Renfrewshire's Housing Need

New build affordable housing must reflect local demographics with both private sector and affordable housing developers delivering flexible homes across a range of property types and sizes with a proportion of all new homes to be developed as accessible, including some wheelchair standard housing.

All affordable housing is built to Housing for Varying Needs standard and should have flexibility built into its design to allow for future adaptation and reconfiguration to meet tenant and resident's future needs.

- In 2021, 179,940 people lived in Renfrewshire according to the latest official population and household statistics from National Records of Scotland. Renfrewshire's population was spread across 87,910 different households with an average household size of just over two people.
- By 2028, the number of households in Renfrewshire is expected to increase to around 90,600 through a combination of small projected increases in the population combined with an increasing number of people living alone which places upwards pressure on the overall number of households.

- Renfrewshire's population like Scotland's is ageing with people living longer. In 2021, almost one fifth (19.6%) of Renfrewshire's population was 65 years of age or older.

New build social rented housing, St Ninian's Crescent, Paisley (Link Group)

New build Council Housing for social rent, Auchengreoch Road, Johnstone

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Renfrewshire Affordable Housing Investment Priorities

All projects included within this draft Strategic Housing Investment Plan have clear links to the Strategic Priorities of the new draft Local Housing Strategy.

Together with our partners, Renfrewshire Council acknowledge the important contribution good quality affordable housing makes to people's lives with good quality housing having a positive impact on health, general wellbeing, educational attainment and the reduction of child poverty.

Good quality affordable homes also contributes to enhancing Renfrewshire's towns and villages by encouraging a sense of place and community with place making principles employed when taking projects forward to foster housing's role in creating successful and sustainable places.

This draft Strategic Housing Investment Plan supports the provision of a range and choice of affordable housing of the right type and size to meet the needs of different groups throughout Renfrewshire.

This will be achieved through new build affordable housing development and through the purchase of appropriate homes on the open market where this is the most appropriate option in line with the priorities of the Local Housing Strategy.

This draft Strategic Housing Investment Plan includes a range of projects that will meet the needs of individuals, families and those who require accommodation to meet a particular housing need such as housing for older people and housing to meet the needs of those with physical disabilities.

This draft Strategic Housing Investment Plan identifies projects for both general and particular needs with particular needs provision included as standalone purpose-built accommodation as well as within mainstream general needs developments.

This provision alongside appropriate support will assist people to live independently and successfully for as long as possible in their own homes and communities.

Affordable homes delivered through the Strategic Housing Investment Plan process requires to be of a high quality, be energy efficient and be able to meet people's needs and aspirations both now and in the future with homes able to adapt to meet people's changing needs over time.

In recent years, affordable homes have been delivered through the Strategic Housing Investment Plan process across a range of affordable tenures, this approach will continue to support the delivery of a range of affordable housing options.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

The draft Strategic Housing Investment Plan also supports delivery of affordable homes on larger private sector sites by making appropriate use of Renfrewshire's Affordable Housing Policy to support delivery of affordable housing in areas of pressure and to promote the creation of mixed tenure communities.

As well as new build affordable housing, this draft Strategic Housing Investment Plan places a strong emphasis on making best use of existing stock where possible and taking any necessary action to address issues in terms of housing quality and sustainability.

This includes progressing Council plans for targeted regeneration activity with new build Council development and/or significant investment and improvements to existing homes.

Millarston, Paisley (Link Group)

The draft Strategic Housing Investment Plan will support the delivery of the new Local Housing Strategy by:

1. Supporting local housing regeneration programmes;
2. Including new affordable housing provision to replace social rented housing no longer fit for purpose;
3. Addressing mismatch between the current supply of social rented housing and the housing people need and want to live in, taking account of type, size, quality and location;
4. Increasing the supply of affordable housing in areas where there is demand but limited provision;
5. Supporting the development of sustainable mixed communities by including affordable provision on private sector development sites;
6. Expanding the supply of housing for older people and those with particular and complex needs, including those who are homeless or on a repeat and persistent cycle of homelessness; and
7. Continuing to support town centre regeneration through residential development.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Renfrewshire Council Regeneration and Renewal Programme

Renfrewshire Council have approved an investment of at least £100 million over the next 10 years to deliver modern, high quality, energy efficient, affordable Council homes.

The Council's £100 million investment programme is intended to significantly improve the Council's existing housing stock through enhanced investment in homes, including works to the external fabric of properties as well as environmental improvements.

This significant investment will also support the delivery of new build Council homes where enhancement and improvement of existing stock has been determined not to be viable following consultation with local communities.

Phase 1 of the Council's regeneration programme identified 8 initial areas to participate in a first phase of regeneration activity with each of these areas identified based on having a combination of one or more of the following factors - low demand, high void rates, high turnover, estate management issues, high current repair costs and high future investment requirements with these areas often also forming part of the most deprived areas of Renfrewshire according to the Scottish Index of Multiple Deprivation 2020.

For each of the eight areas, a range of regeneration and renewal proposals were developed and consulted upon. In some areas, these proposals included selective demolition with plans now being developed for newbuild housing on any resulting cleared site or where redevelopment is not possible, on alternative sites nearby.

Grant support from the Strategic Housing Investment Plan will be required to support the delivery of new Council homes in 4 regeneration areas where existing stock is being demolished as part of phase 1 of the regeneration programme. These areas are:

- Howwood Road Area, Johnstone;
- Thrushcraigs Area, Paisley;
- Broomlands Area, Paisley; and
- Springbank Area, Paisley.

Other areas identified for improvements to existing stock include:

- Auchentorlie Quadrant/Seedhill Road, Paisley;
- Howard Street, Paisley;
- Moorpark, Renfrew and;
- Waverly Road, Paisley

It is the Council's ambition that this housing led regeneration becomes a catalyst for wider regeneration and a means to address inequalities including health inequalities, recognising that good quality housing can be a contributor to positive health outcomes.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Particular Housing Needs

The new draft Local Housing Strategy highlights the need for housing that meets the particular housing needs of a range of client groups with a particular focus on homelessness prevention (Strategic Priority 4) and enabling people to live independently for as long as possible in their own home with their different housing needs being met (Strategic Priority 5).

This draft Strategic Housing Investment Plan carries forward a number of projects to address identified particular needs with these projects having been refined since the last Strategic Housing Investment Plan.

- **16+** Amenity standard housing at Abbey Quarter Phase 4, Paisley which will sit alongside general needs housing;
- Amenity standard housing at Station Road, Paisley with around **45** amenity standard homes being developed for social rent;
- Older Persons housing re-provisioning, Erskine with around **24** new older persons homes being developed to replace existing provision.

Regular discussions take place with Renfrewshire Health and Social Care Partnership (HSCP) when planning new developments with it recognised that there is a continuous need to investigate the requirements for particular needs developments at an early stage

to ensure that projects are viable, sustainable and capable of meeting tenants and residents' needs.

Wheelchair Accessible Housing

Renfrewshire Council and its Housing Association partners aim to deliver a range of property types and sizes to meet people's different housing needs, this includes the development of homes that meet wheelchair accessible standards.

Moving forward, all new build developments proposals will be required to design homes that are able to meet occupants changing needs over time and the needs of an ageing population by providing accessible and adaptable homes.

In line with Scottish Government guidance, targets for the inclusion of wheelchair accessible homes as part of all tenure new build developments have been identified as part of the development of the new draft Local Housing Strategy 2022-2027.

The new draft Local Housing Strategy proposes that:

- New residential proposals must provide a **minimum 10%** of all dwellings designed to be easily adaptable for residents who are wheelchair users; and
- **5%** of all new homes must be designed to wheelchair accessible standard.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Rapid Rehousing Transition Plans

Renfrewshire Council and partners worked together to prepare a Rapid Rehousing Transition Plan (RRTP) covering the 5 year period to 2024. The Rapid Rehousing Transition Plan details how those who are homeless will be provided with settled accommodation more quickly; spend reduced time in temporary accommodation and have more access to up-scaled support.

The strategic housing priorities contained within this draft Strategic Housing Investment Plan are aligned with and consistent with the Rapid Rehousing Transition Plan with this draft Strategic Housing Investment Plan supporting delivery of homes to meet the requirements of different needs groups, household types and sizes.

Child Poverty (Scotland) Act 2017

This draft Strategic Housing Investment Plan recognises the fundamental role housing has in tackling child poverty.

This Strategic Housing Investment Plan aims to support the delivery of a range of property types and sizes that meet the needs of families of all sizes through the creation of high quality energy efficient homes in sustainable communities that support health, wellbeing and educational attainment.

Gypsy/Travellers

The Renfrewshire Local Development Plan includes a policy which supports the identification of new privately-owned transit or permanent sites.

Should a requirement for accommodation/sites be identified to meet the needs of Gypsy/Travellers, future updates of the Strategic Housing Investment Plan will include details of these projects with funding potentially also being sought from the Gypsy/Traveller Accommodation Fund where appropriate.

Addressing the Climate Crisis in Renfrewshire

Tackling the Climate Crisis is a major priority for Renfrewshire Council with work currently being progressed to develop Renfrewshire's Plan for Net Zero with actions to achieve Net Zero to be embedded in related Council plans and strategies.

It is recognised that changing climate has a direct impact on Renfrewshire's current housing stock and that some residents will be more vulnerable to this than others.

The Council's £1m Climate Change Action Fund, which funds innovative projects and initiatives, supports engagement and partnership working across Renfrewshire and accelerates the pace of change of existing projects in order to tackle the climate crisis.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Climate Change Adaptations

Projects included within this draft Strategic Housing Investment Plan aim to tackle fuel poverty by maximising opportunities for innovative energy efficient development with greener measures included within new build developments.

Both Renfrewshire Council and our housing association partners are looking to incorporate additional energy efficiency measures as part of new build design and will actively target reduced carbon emissions from new build development.

Council Tax on Empty and Second Homes

At present, there is no direct funding allocated to the affordable housing programme in Renfrewshire from revenue raised from empty homes. However, the Council actively use other mechanisms available to promote the delivery of affordable housing.

This includes the Council's Empty Homes Officer who works with and encourages owners of empty homes in Renfrewshire to bring their properties back into use, offering advice and assistance and access to the Empty Homes Loan Fund where applicable.

Over the last 3 years, the Council's Empty Homes Officer has successfully helped to bring 63 long term empty homes back into the effective housing supply (*2018/19: 14 homes, 2019/20: 26 homes and 2020/21: 23 homes*).

Acquisition of Private Housing (Rental Off the Shelf)

As part of this draft Strategic Housing Investment Plan, provision is made for a proportion of available resources to be used to assist social housing providers - both the Council and housing association partners - to purchase appropriate properties for social rent on the open market where this would help to meet identified housing needs or enable social landlords to undertake pro-active management and maintenance of housing stock.

This provision will support the acquisition of a range of property types including empty homes and other types of property where the acquisition of these properties align with the Strategic Priorities of the new Local Housing Strategy and the Council's Acquisitions Strategy.

Available resources will continue to be prioritised to support the delivery of new build affordable housing with open market acquisitions supported where there is slippage in the programme in any given year and funding may therefore be available.

Where funding is available, grant support may be made available to the Council and housing association partners to support these strategic acquisitions of up to £40,000 per property to support strategic acquisitions.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Consideration will only be given to properties in line with the Council's Acquisitions Strategy with properties required to:

- meet an identified need in terms of stock type, size and location;
- meet particular needs which may be difficult to address within the existing stock base;
- represent good value for money, taking account of repair and investment requirements as well as purchase price;
- located close to the stock base of the acquiring landlord, for management and maintenance purposes; and
- assist in allowing common works to be progressed on mixed tenure blocks.

To be eligible for grant support, affordable housing providers will be expected to investigate all other available funding options alongside grant support from the Council's Resource Planning Assumption/Affordable Housing Supply Programme.

Ukrainian Refugee Resettlement

Following the outbreak of conflict in the Ukraine, Renfrewshire Council have been working with the Scottish Government and COSLA to determine what Renfrewshire can provide in terms of matching refugee arrivals from the Ukraine to empty properties in Renfrewshire that are available from either the Council's or our housing association partners affordable housing supply.

To date, most accommodation required has been smaller with one or two bedrooms being used due to the arriving household size – this is challenging due to local needs pressures on the supply of smaller properties.

At present, the exact number of homes required to support Renfrewshire's contribution towards this national resettlement scheme is unclear. However, this additional housing need may in part be met through strategic acquisitions of private housing with grant provided in line with the proposed grant support levels for other strategic acquisitions on the open market.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Delivering New Affordable Homes in Renfrewshire

As shown in **Appendix 3**, plans are in place to deliver significant levels of new affordable homes throughout Renfrewshire.

Regeneration activity remains a key focus with this Strategic Housing Investment Plan reflecting the strategic importance of regeneration activity across Renfrewshire.

The importance of strategic regeneration is reflected in the projects currently on site or proposed to be taken forward over the next five years as shown in **Appendices 1 and 3**.

Detailed information with regards to ongoing and proposed affordable new build developments can be found in **Appendix 1**.

Renfrewshire Council New Build Programme

This draft Strategic Housing Investment Plan rolls forward the Council's own ambitious new build programme and follows the completion of new build Council homes at both Dargavel Village, Bishopston and at Johnstone Castle in Johnstone in recent years.

Other new build Council housing projects are currently progressing well with completion of new Council homes anticipated at Auchengreoch Road in Johnstone in Summer 2022 and at Ferguslie Park, Paisley in early 2023.

The Council's regeneration programme will also deliver new Council homes in the Howwood Road area of Johnstone, Thrushcraigs area of Paisley, Broomlands area of Paisley and in the Springbank area of Paisley.

Programme Management and Project Prioritisation - Core and Shadow Programme

This draft Strategic Housing Investment Plan splits projects in to two groups through the use of a 'core' and 'shadow' programme. Projects within each group are shown in **Appendix 3**.

Projects within the 'core' group will be progressed in the earlier years of the programme (normally years 1-3) where there is grant availability and where developers finances allow.

Projects included in the 'shadow' programme will be progressed as 'core' projects complete or funding becomes available or where there is the ability to 'front fund' projects to allow projects to proceed earlier. This may mean that project timescales are subject to change.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

In terms of front funding, the Council or the housing association partner may initially fund the early stages of project development costs from their own resources, with grant being paid to developing organisations at the first available opportunity as funding becomes available.

The inclusion of a 'core' and 'shadow' programme allows for more effective management of available resources whilst allowing an element of flexibility that assists in addressing slippage on projects due to draw down grant support in any given year.

Projects in the shadow programme may require extended lead in times to allow for site investigative works, site assembly or to arrange the necessary private finance to enable a development to proceed – all of these aspects influence how projects are prioritised within the programme.

Additional new projects may be added to the programme should appropriate opportunities arise over the next 12 months prior to the next update of the Strategic Housing Investment Plan. Any additional projects brought forward will need to align with Local Housing Strategy Strategic Priorities.

Delivery

The Council will continue to explore options for joint working around innovative delivery mechanisms that support the delivery of affordable housing throughout Renfrewshire.

Both the Council and our housing association delivery partners will continue to look for efficiencies in construction methods and will work with the construction industry and design teams to determine the suitability of non-traditional construction methods for projects included with the Strategic Housing Investment Plan.

Housing Infrastructure Fund

In recent years, a number of Renfrewshire projects have successfully accessed the Housing Infrastructure Fund with housing association partners continuing to look at options to bid for support from the Housing Infrastructure Fund as and when required.

At present, no project developer within this draft Strategic Housing Investment Plan is looking to access Housing Infrastructure Fund support, however this may change as developments move on site.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Monitoring Progress

A range of project management activities are used to ensure resources are managed effectively with projects progressing as planned. These project management activities include:

- Ongoing liaison between services within the Council and between the Council and Registered Social Landlord partners on specific projects;
- Multi-agency project group meetings;
- Quarterly tripartite meetings involving the Council, individual developing Registered Social Landlord partners and the Scottish Government; and
- Six weekly internal officer group meetings to review progress.

Throughout the duration of this draft Strategic Housing Investment Plan, progress will continue to be monitored to support project delivery.

Draft Strategic Housing Investment Plan Appendices and Priorities

Appendix 1 details progress with projects currently on site as well as future proposed projects over the lifetime of the Strategic Housing Investment Plan.

Appendix 2 shows recent affordable housing completions.

Appendix 3 lists projects that are currently progressing and/or expected to draw down grant funding and/or be completed during the lifetime of this Strategic Housing Investment Plan.

Appendix 4 gives details of sub-areas and settlements within Renfrewshire.

DRAFT RENFREWSHIRE STRATEGIC HOUSING INVESTMENT PLAN 2023 TO 2028

Equalities

This draft Strategic Housing Investment Plan includes housing provision for a range of different needs groups with provision included for older people and those with physical disabilities with a range of development sites supporting the provision of both clustered accommodation which is being developed to meet an identified need as well as mixed developments that support inclusive and independent living with blended general and particular needs accommodation.

This draft Strategic Housing Investment Plan has been prepared in consultation with the Health and Social Care Partnership to ensure that projects take account of opportunities to deliver housing that meets the needs of a range of households with an identified specific need.

In line with The Equality Act 2010 and the associated protected characteristics, an Equality and Human Rights Impact Assessment has been prepared alongside the preparation of the draft Strategic Housing Investment Plan 2023 to 2028.

The aim of this assessment was to identify the likely or actual effects of this Strategic Housing Investment Plan 2023 to 2028 on people.

This includes identifying where there will be a positive impact and further opportunities to further promote equality. Where there are any potential negative impacts identified, we have identified actions required to eliminate or mitigate these negative impacts.

New build Council Housing for social rent, Auchengreoch Road, Johnstone

Appendix 1: Renfrewshire Affordable Housing Project Updates

1A: Projects currently on site and expected to complete in full during 2022/23

Development	Units	Status	Comment
Millarston, Paisley	99	On site, due to complete in July 2022	This development of 99 new homes for social rent add to the mix of affordable homes in this area. Completion expected July 2022.
Auchengreoch Road, Johnstone	39	On site, due to complete in July 2022	This development of 39 new Council homes adds to the affordable housing supply in South-West Johnstone. Completion expected July 2022.
Bishopton Phase II, North Renfrewshire	58	On site, due to complete in September 2022	This second phase of development within Bishopton Community Growth Area (CGA) (Dargavel Village) will provide 58 social rented homes by Loretto Housing Association. Completion expected September 2022.
Ferguslie Park, Paisley	101	On site, due to complete in January 2023	This development of 101 new homes being developed by the Council will assist in the regeneration of the Ferguslie Park area. Completion expected early 2023.
Albert Road, Renfrew	42	On site, due to complete in February 2023	This social rented development of 42 homes by Williamsburgh Housing Association will add to the affordable housing supply in Renfrew. Completion expected early 2023.

1B: Projects currently on site or due to start on site in 2022/23 (includes phased completions in 2022/23 and beyond)

Development	Units	Status	Comment
Abbey Quarter Phase IV, Paisley Town Centre	81	On site, Due to complete August 2023	Link Group are on site delivering 81 new affordable homes. This fourth phase of development will complete the redevelopment of the former Arnott's site which is a key strategic location in Paisley Town Centre. This development will complete in phases during 2022/23 and 2023/24.
Napier Street, Linwood	51	On site, Due to complete August 2023	This social rented development of around 51 homes by Sanctuary Scotland Housing Association will add to the affordable housing supply in Linwood.
Woodend House, Houston, West Renfrewshire	14	Due to start on site August 2022	Link Group are providing 14 new homes for social rent within a larger private sector development in Houston, West Renfrewshire. These affordable homes will all to the supply of affordable homes in West Renfrewshire. The overall development will complete in phases during 2022/23 and 2023/24.
Orchard Street, Paisley	47	Due to start on site in late 2022	Plans are progressing for a Comprehensive Tenement Improvement (CTI) project at Orchard Street/Causeyside Street, Paisley following 5 blocks of flats being designated as a Housing Renewal Area (HRA) in March 2017. The overall development is expected to complete in 2023/24.
Johnstone Castle Phase II	68	Due to start on site in March 2023	Link Group are progressing plans for a second phase of affordable housing in Johnstone Castle. This second phase of development will provide around 68 new homes for social rent as well as associated infrastructure and green spaces. This development will complete in phases during 2023/24 and 2024/25.
Bishopton Phase III, North Renfrewshire	62	Due to start on site in March 2023	This third phase of development at Bishopton Community Growth Area (CGA) (Dargavel Village) by Loretto Housing Association will provide around 62 affordable new homes for social rent.

1C: Projects expected to start on site in 2023/24 or later or when a projected site start date has still to be confirmed

Development	Units	Status	Comment
Cartha Crescent, Paisley	31	Due to start on site in April 2023	This social rented development of around 31 homes by Williamsburgh Housing Association will add to the affordable housing supply in central Paisley.
Gibson Crescent, Johnstone	28	Due to start on site in October 2023	This social rented development of around 28 homes by Williamsburgh Housing Association will add to the affordable housing supply in Johnstone.
Station Road, Paisley	45	Due to start on site in October 2023	This development by Linstone Housing Association will provide amenity housing for older people (around 45 new homes).
Gallowhill, Paisley	60	Site start date tbc	This social rented development of around 60 homes by Renfrewshire Council will add to the affordable housing supply in the Gallowhill area. Site Investigations at this location are currently ongoing.
