### Reasons For Refusal Descriptions

Please note that (A) is not used as this is used by the Scottish Executive as a total.

- B Placing a child in a school would make it necessary to employ an additional teacher.
- C It would give rise to significant expenditure on extending or altering accommodation.
- D It would be seriously detrimental to order and discipline in the school.
- E It would be seriously detrimental to the educational well being of the pupils already at the school.
- F It would be seriously detrimental to the continuity of the child's education.
- G The education normally provided at the specified school would not be suited to the age, ability or aptitude of the child.
- H The education authority has already required the child to discontinue his/her attendance at the specified school.
- I The specified school is a special school and the child does not have special educational needs requiring the education or special facilities normally provided at that school.
- J The specified school is a single sex school and the child is not of the sex admitted to the school.
- K Accepting the request would prevent the Council reserving a place at the school for a child likely to move into the catchment area of the school in-year.
- L Accepting the request would make it necessary for the Council to create an additional class or employ an additional teacher at a future stage of the child's primary education.
- M Under the terms of section 38(1) of the Standards in Scotland's Schools etc. Act 2000, the education normally provided at the specified school would not be suited to the ability and aptitude of the child.
