

Hawkhead Cemetery

Improvement works

As part of our investment to improve our cemeteries we are carrying out significant upgrades to Hawkhead Cemetery.

The works include drainage, road resurfacing and kerb improvements to enhance the experience for those visiting their loved ones.

Works will take place from **Monday 25 May** and are estimated to last six weeks.

The map outlines which roads and pathways are unavailable during this time, although diversions are in place to ensure all areas of the cemetery remain accessible.

We're working closely with local funeral directors to ensure that all appropriate arrangements can be made and facilitated during the works.

During this time:

- All areas of the cemetery will be open for funerals and visitors using the signposted diversions.
- Diversions will be in place to direct you to all areas of the cemetery. This may require you taking a longer route than normal.
- Areas will be coned off, please do not try and enter these areas.
- Please be respectful and stay on the main routes, taking care not to drive over graves or pedestrian paths.
